

GUJARAT INFRASTRUCTURE DEVELOPMENT BOARD (GIDB)

With the help of Digitek GIDB is able to provide 22 infrastructure sectors information through a comprehensive portal.

Gujarat today accounts for nearly 19% of the total industrial investments in India and has emerged as a leading industrial State in the country. In a very short time, it has evolved into an economy dominated primarily by the manufacturing and the service sector. Growing industrialization of the State & increasing needs of the people for better quality of life and the need to cater to the burgeoning trade through the hinterland has put tremendous pressure on the existing infrastructure in the State. Therefore there is a clear need for World Class Infrastructure to sustain this rapid pace of economic growth.

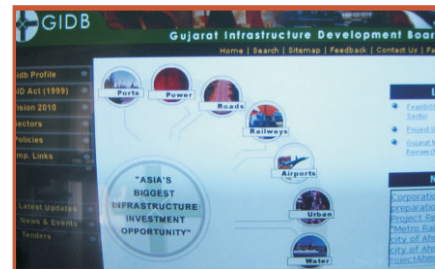

GIDB was entrusted to create a portal giving complete information about all sectors.

Digitek was selected to conceptualize, redesign of the portal and develop, upload, install and do maintenance services for GIDB.

The main objective behind making the site is to provide a bridge between client & board, to increase interaction between them with more authenticity & reliability.

Digitek professional carried data gathering exercise on the site. The draft data was segregated and sorted as per the sectors.

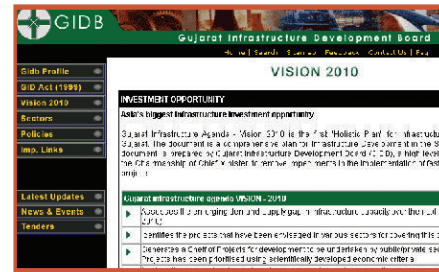

Digitek envisaged the portal and designed the site map which contained a brief profile of the organization, its objectives, achievements, organizational structure, agenda, methodology and opportunities offered to investors.

Detailed information about each of the sectors like port, Power , Roads , Railways, Airports, Urban Infrastructure, Water Supply, Information Infrastructure, Industrial Parks, Gas, Tourism, Policies, Port policy, Power policy, Captive power policy, Civil Aviation policy, IT policy and Industrial policy.

The portal facilitates text based information retrieval and access, feedback, contact info, site maps, press release, news

Let's get **IT** on.
